

## INLINE FILTERS AQUA BIG

Used for households, industry, services...

- Heating system protection
- Sediment pretreatment for water treatment systems
- Prefilter for reverse osmosis systems
- Carbon filtration

AQUA BIG, height 10", 20".

- Polypropylene head with decompress valve
- Blue polypropylene housing
- In/out 1" or 1,5"
- Working pressure 8 bar
- Max. temp. 52°C
- Hygienic certificate PZH

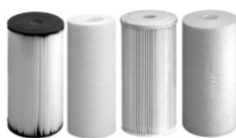

Accessories:

- Mounting bracket
- Wrench

AQUA BIG	AB101	AB1015	AB201	AB2015
In/out diameter [inch]	1"	1,5"	1"	1,5"
Nominal flow [m <sup>3</sup> /h]	6,0	7,0	8,0	13,0
Diameter [A] x height [B] [mm]	184x346	186x346	184x606	186x606

### FILTER CARTRIDGES

**SEDIMENT:** stop sand, rust, oxidized iron, improve turbidity and color

Type	Symbol		Height		Filtration [micron]					
			10"	20"	5	10	20	30	50	90
Pleated cartridges	10FCCEL5BB	10FCCEL20BB	10"	20"	5		20			
	CP5BB		10"		5					
	R30BB	R50BB	10"				30	50		
Melt blown cartridges	10FRBB	20FRBB	10"	20"	1	5	10	20	50	90
String cartridges	10FABB	20FABB	10"	20"	5		20	50		

**CARBON:** absorb smell and improve taste of the water (chlorine, organic substances)

Type	Symbol		Height	
Carbon block	FCCBL 10BB	FCCBL 20BB	10"	20"
Granular carbon	GAC 10BB	GAC 20BB	10"	20"

**EKO CLEAN** - self-rinsing sediment filter

- Inline filter with rinsing system, system of scrubbing brushes
- Stops sediments (sand, gravel, sediment, iron, slime)

- Materials: brass head, trogamide housing, stainless steel cartridge
- Dimensions: height 340 mm., width 115 mm.
- Filtration: 90 micron
- Working pressure: 16 bar
- Working temperature: 60°
- Hygienic certificate PZH

Ekoclean series			
In/out diameter [inch]	¾"	1"	1 ¼"
Nominal flow [m <sup>3</sup> /h]	3,2	4,5	5,0
